Workshop links & materials are available from the website below:

Website: <http://mentalarcade.com/wkshp/creativity.html>

Dr. Garrigan provides local, regional, and national keynotes, presentations, and workshops for teachers, administrators, and technology leaders. A lifetime educator, technologist, and futurist, his topics range from hands-on workshops with open-source science simulations to presentations on the design of future curriculum in an information-rich environment. If you are interested in engaging technology workshops, consultation on sustainability, grant-funding of new projects, or brain-compatible teaching and learning, contact Garrigan Learning.
